DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 27, 2007 has been entered.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: For claims 1, 25, and 28, the specification does not provide support for "about 5 by weight olive oil, about 21 % by weight sunflower oil, about 21 % by weight almond oil, about 10 % by weight cod liver oil, about 3 % by weight castor oil". For claim 2, "about 17 % by weight" of a pharmaceutically acceptable excipient also lacks support from the specification. The only support for these weight amounts that are described with the term "about" is found in the originally filed claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 5-15, 17, 23-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The specification provides a single formulation with specific weight amount of the each ingredient that is recited in the claims, and the metes and bounds of the scope of the term "about" is unclear. For example, it is not clear what patent protection would be afforded by "about 5 % by weight olive oil", when there is no information in the specification or the prior art to provide any suggestion what range is covered by the term "about. See instant claims 1, 2, 25, 28. See Amgen, Inc. v. Chugai Pharmaceutical Co., 927 F.2d 1200, 18 USPQ2d 1016 (Fed. Cir. 1991).

The remaining claims are rejected, as they depend on indefinite base claims.

Response to Arguments

Applicant's arguments, filed on April 27, 2007 have been fully considered and are persuasive. The obviousness rejections as indicated in the previous Office action dated March 28, 2006 has been withdrawn.
